TO BE FORWARDED TO THE UNITED STATES BY SAILING SHIP.

It is desired to forward letters to the States by a sailing ship which is not so certain a mail, it is only necessary to ascertain the date in the ordinary way, marked on the name of the ship, and forward 10 cents extra as usual. The Post Office then gives the date of forwarding notice of departure and dispatching the correspondence. If it is believed that the letters be mailed if possible one day before the date fixed for sailing.

TEA SUPPLIES.

Persons who send Masters of Tea through the States are requested to have them in tin or square instead of round, as it is by far the most secure in the States. It is believed that the tea will travel safely in flat tins, which are not so liable to break as round ones.

By 14 inches is supposed as a good size they should not have sharp corners.

The image is a high-contrast, black and white photograph. The upper portion of the image is a light, speckled area, possibly representing a textured surface or a background. The lower portion is a dark, solid black area, which appears to be a book cover or endpaper. The boundary between the two areas is irregular and jagged, suggesting a torn or uneven edge. There are some small, dark spots and artifacts throughout the image, particularly in the light area, which could be dust or imperfections in the original material.
